EDITORIAL

Europe has been a pioneer in the implementation of environmental, social and governance rules. From now on, beyond shareholder engagement, non-financial criteria are becoming a tool for selectivity but above all for improving social practices, governance and environmental footprint.

MANAGEMENT OBJECTIVE

This UCITS is actively managed on a discretionary basis according to a qualitative non-financial filter in line with the policy implemented by Crédit Mutuel Asset Management and in compliance with the requirements of the French SRI label. The investment objective is to outperform, net of expenses, its benchmark index 50% €STR Capitalised + 50% EURO STOXX LARGE Net Return index over the recommended investment period. The indices are used at the closing price and expressed in euros, dividends reinvested, taking into account the capitalisation of interest for the €STR. The composition of the UCITS may differ significantly from the breakdown of the benchmark index.

3 ESG RATING

CRÉDIT MUTUEL ASSET MANAGEMENT

	Fund ESG rating
	out of 10
Overall rating	6.69
E rating (Environment)	6.94
S rating (Social)	6.46
G rating (Governance)	6.73

Crédit Mutuel Asset Management's proprietary ESG analysis model uses a tool to assess the risks and opportunities related to the environmental and social transitions of the issuers making up the portfolio. The analysis of issuers covers five main pillars: environmental, social, societal, governance and the company's commitment to a socially responsible approach. A rating is then calculated based on three components (environment, social and governance), which enables us to position the portfolio in terms of ESG. The exercise of voting rights and dialogue with issuers round out our responsible investor approach.

4 MANAGEMENT COMMENT

Equity markets continued to perform well in March, with limited volatility. The central banks decided to kept their key rates unchanged, but the banking sector was particularly buoyant due to the delay in expectations of the first rate cut. Our main convictions include UniCredit (+13.8%), Intesa Sanpaolo (+14.5%), BBVA (+20.2%) and BNP Paribas (+18.9%). Among the best performers among the main convictions, we also find companies in the aeronautics sector such as Safran (+8.4%), Airbus (+11.6%) and Rolls Royce (+15.7% in GBP), while Thalès gained 15.3% due to good results. Novo Nordisk (+8.3% in DKK) announced encouraging results for phase I of its daily anti-obesity pill. After a nice recovery since January and the publication of its annual figures, LVMH was down over the period (-1.1%). Lastly, March was marked by a rebound in commodities such as oil, and thus in integrated oil companies, from which the fund is totally absent. The fund's exposure to equity markets ranged between 52% and 55% over the period. At the end of the month, it stood at 55%.

6 A WORD FROM SRI

After two years of consultation, the Security and Exchange Commission has just published its climate reporting rules. While the initial text provided for the publication of greenhouse gas emissions in all three scopes, the final version is limited to the first two, which represent on average only 25% of a company's emissions, according to recent estimates by the Carbon Disclosure Project. In addition, this disclosure is now only required for the largest companies that consider this risk to be material for them; growth companies and companies of limited size are not affected. Although it is not very restrictive, this regulation is already being challenged by no less than 10 states and may therefore never come into force.

10 SRI FOCUS ESG INDICATORS

The philosophy of Crédit Mutuel Asset Management's SRI-labelled funds is based on the monitoring of indicators related to key ESG objectives, such as limiting carbon emissions (intensity), whistle blower policy, gender equality, executive compensation and respect for human rights.

	Portfolio	Universe
E rating : Environmental		
Carbon intensity (Scope 1+2)** Tonnes of CO2 equivalent per million revenue	92.0	127.3
Coverage ratio	99.8%	95.1%
S rating : Societal		
Whistleblower Protection Policy	99.9%	95.0%

Coverage ratio	99.3%	94.0%
DH rating : Human Rights		
Number of red controversies related to human rights	0	0
Coverage ratio	94.2%	99.9%

* 1st performance indicator.

The fund invests in companies whose activities help to reduce the human environmental footprint, i.e. players who enable the transition to a less energy-intensive economy and more renewable energy. In this approach, carbon intensity can be important. The management of the fund will seek to reduce this intensity over time.

** 2nd performance indicator.

The objective of the two performance indicators above is to outperform the starting monetary universe. The raw data of ESG indicators (E, S, G and DH) are published once a year by the companies. The calculations were made using the latest data available.
