The AMF is responsible for monitoring the information provided by CREDIT MUTUEL ASSET MANAGEMENT in this key information document. CREDIT MUTUEL ASSET MANAGEMENT is a portfolio management company authorised and regulated by the AMF.

The key investor information provided herein is accurate and up to date as of 02/01/2023.

KEY FEATURES OF THIS PRODUCT

FUND TYPE

A UCITS fund of a SICAV open-ended investment company.

This Key Investor Information document describes one sub-fund of CM-AM SICAV. The CM-AM EUROPE VALUE prospectus and periodic reports are prepared for all of the CM-AM SICAV sub-funds. The assets and liabilities of the various sub-funds are segregated. You will therefore not be able to exchange your shares in this sub-fund for shares in another CM-AM SICAV sub-fund.

OBJECTIVE

This fund is managed actively on a discretionary basis and implements qualitative ESG screening in accordance with Crédit Mutuel Asset Management's policy and in compliance with French ISR label criteria. It does not use a benchmark index. Its investment objective is to increase the value of its portfolio over the recommended investment period by selecting securities it considers to be undervalued.

To achieve this objective, the fund manager may select companies in the European Union, the United Kingdom, Switzerland and Norway with market capitalisations of over EUR 500 million and which are ESG rated. The investment strategy then consists in employing ESG screening and financial analysis to further filter this universe. The fund's strategy is underpinned by a selective approach that favours issuers with the highest ESG ratings, or which are making progress in their environmental, social and governance practices, and excludes those whose ESG practices are considered to be risky.

The investment process observes the following 3-step methodology:

1. ESG filter and controversy management: The investment team will implement filters to screen for specific ESG criteria which are determined using a proprietary methodology developed by the Responsible and Sustainable Finance Research team. These filters cover governance quality, employee, social and environmental criteria that serve to assess the commitment to social responsibility of a company or state. For example, our ESG criteria include carbon intensity (E), the gap between a company's average salary and its CEO's remuneration (S), and the proportion of women on the board of directors (G). These filters are used to rate issuers on a scale of 1 to 5, with 5 being the highest rating. The investment team will exclude the lowest rated issuers. Each issuer's management of ESG controversies is also specifically reviewed, tracked and rated. The investment team will exclude all issuers involved in a major controversy. By excluding the lowest rated securities, this initial ESG screening reduces the investment universe by at least 20%.

2. Financial analysis: Within this filtered universe, securities are subject to in-depth financial analysis that is consistent with a Value investment strategy. The aim is to identify companies whose equities have been unjustifiably discounted and which have a solid balance sheet and a catalyst for recovery. The securities in this universe are monitored and eligible for investment.

3. Portfolio construction: When the ESG and financial analyses are completed, the portfolio is constructed from the equities picked by the investment team on the basis of their convictions.

Non-financial criteria are observed for at least 90% of the securities and funds selected by the investment team. The fund may invest up to 10% of its net assets directly in securities or funds that do not take ESG criteria into consideration.

Issuers with the highest ESG ratings are not automatically included in the portfolio construction process as they must satisfy the financial analysis criteria.

The fund was awarded the French ISR label for socially responsible investment.

The fund will observe the following net asset exposure limits:

From 60% to 110% of net assets may be invested in equities of all geographic regions, with no restrictions on market capitalisation or sector, subject to the following limits:

- at least 60% in EU equity markets

- from 0% to 25% in equity markets with a capitalisation of less than 3 billion euros

From 0% to 10% may be invested in sovereign, public and private debt instruments, regardless of geographic region, provided these instruments are of investment grade quality, as determined by the management company or a credit-rating agency.

From 0% to 10% in convertible bonds

From 0% to 100% exposure to currency risk on non-euro currencies.

At least 75% of the fund's net assets must remain invested in securities that are eligible for PEA savings plans.

The fund may also:

- **trade in forward contracts**, futures, options and securities with embedded derivatives, used for hedging and/or to gain exposure to equity, interest-rate, credit and currency risks, which may increase the portfolio's exposure beyond 100% of net assets.

RETAIL INVESTORS TARGETED AND FUND DURATION

This fund is intended for investors with a long-term investment horizon that is consistent with the fund's recommended investment period. It is intended for investors with at least a basic knowledge of financial products and markets, and who are willing to accept the risk of capital loss. The fund is not open to residents of the United States of America / US Persons. For more information you may refer to the glossary on Crédit Mutuel Asset Management's website.

The fund's objective is capital growth, while integrating non-financial criteria into its investment process. Prospective investors should contact their financial advisor for guidance as to whether the proposed investment solutions are compatible with their objectives, knowledge and experience of financial markets, assets and risk appetite. Their financial advisor may also inform them of potential risks.

Allocation of distributable amounts: Accumulation

Subscription / redemption: Subscription and redemption orders are processed every business day at 12 noon and executed at that day's net asset value. The net asset value is calculated every business day at closing market prices, except on French public holidays or when the Paris stock exchange is closed as per the Euronext SA calendar.

Fund duration: This fund was established for a period of 99 years, which may be extended as set forth in the fund Rules. For more information, please refer to the "Other relevant information" section of this document.

RISK AND REWARD PROFILE

RISK INDICATOR

Lower risk and typically lower rewards

Higher risk and typically higher rewards

This risk indicator assumes that you will hold this fund for at least five years.

It enables you to assess this fund's level of risk exposure and compare it to other funds. It reflects the probability that this fund may suffer a loss due to adverse market movements or if we cannot make payments to you.

We have classified this fund as risk class 5 out of 7, which is between medium and high risk. This means that the fund's potential losses are medium to high and that if market conditions were to deteriorate it is likely that the fund's net asset value would be adversely affected.

As this fund does not secure your investment against market fluctuations, you may lose some or all of the capital you invest.

If we are unable to honour your redemptions, you may lose your entire investment. However, you may be protected under consumer protection regulations (see "What happens if we are unable to make payments?"). The indicator shown above does not take such protection into account.

PERFORMANCE SCENARIOS

Your return from this fund depends on the future performance of financial markets. Future market movements are random and cannot be accurately predicted.

The unfavourable, intermediate and favourable scenarios presented below are examples based on the best, worst and median performance of the fund over the last 10 years. Markets may behave quite differently in the future.

Recommended holding period:		5 years	
Hypothetical investment amount:		10,000 EUR	
		If you leave after 1 year	If you leave after 5 years
Scenarios			
Minimum	There is no guaranteed minimum return. You could lose some or all of your investment.		
Stressed	Your hypothetical return net of costs	1,390 EUR	1,540 EUR
	Average annual return	-86.1%	-31.2%
Unfavourable	Your hypothetical return net of costs	7,510 EUR	6,810 EUR
	Average annual return	-24.9%	-7.4%
Intermediate	Your hypothetical return net of costs	10,060 EUR	10,580 EUR
	Average annual return	0.6%	1.1%
Favourable	Your hypothetical return net of costs	14,590 EUR	15,070 EUR
	Average annual return	45.9%	8.6%

The figures shown above account for all the costs of the product itself, but not necessarily all the fees owed to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

The stressed scenario shows your hypothetical return under extreme market conditions. If the stressed scenario is more favourable than the unfavourable scenario, then the stressed scenario is the unfavourable scenario.

This type of unfavourable scenario was observed on a fund investment between 31/03/2015 and 31/03/2020.

This type of intermediate scenario was observed on a fund investment between 29/08/2014 and 30/08/2019.

This type of favourable scenario was observed on a fund investment between 30/11/2012 et le 30/11/2017.

Return calculations are based on the fund's performance history

WHAT HAPPENS IF CREDIT MUTUEL ASSET MANAGEMENT DEFAULTS ON PAYMENTS?

The depositary holds the fund's assets in custody independently of CREDIT MUTUEL ASSET MANAGEMENT's assets. If the Management Company that manages your fund's assets defaults this will have no effect on your investment.

Although the depositary does not offer a guarantee, it observes asset segregation rules. If the depositary defaults, you may be able to benefit from a securities guarantee scheme managed by the FGDR (Fonds de Garantie des Dépôts et de Résolution), subject to compliance with the eligibility requirements. Accordingly, if this fund suffers a loss due to a default of the depositary, you may lose some or all of your investment, depending on your situation.

HOW MUCH WILL THIS INVESTMENT COST ME?

Your financial advisor on this fund or its distributor may require that you pay additional costs. If this is the case, they will inform you of these costs and explain how they affect your investment.

COST OVER TIME

The tables below show the amounts taken from your investment to cover the various costs. These amounts depend on the amount you invest, how long you hold your investment and its performance. The amounts shown here are examples based on a hypothetical investment amount and different possible investment periods.

We have assumed the following:

- that in the first year you would get back the amount you invested (0% annual return), and that for the other holding periods the product will perform as shown in the intermediate scenario.
- 10.000 € are invested.

	If you leave after 1 year	If you leave after 5 years
Total costs	442 EUR	1 572 EUR
Annual cost in% (*)	4.5%	2.9% per annum

(*) This shows how much costs reduce your return each year over the holding period. For example, it shows that if you leave the fund at the end of the recommended holding period, you may expect an average annual return of 4% before costs are deducted and 1.1% after their deduction.

We may share costs with the person or entity who/which sells you this fund to cover the cost of the services they provide you. The distributor will inform you of this amount. These figures include the maximum distribution fee that the person selling you the product can charge you (2% of the amount invested or 200 EUR). The distributor will inform you of the actual distribution costs. For example, if you select this fund as the sole vehicle for a life insurance or other contract, **these costs would not be the only costs you might incur.**

COSTS BREAKDOWN

If you leave after 1 year		
One-off entry and exit charges		
Entry charges	2% of the amount you invest in the fund. This consists of a distribution fee of 2% of the amount invested or 200 EUR. This is the maximum amount you will pay. The seller of the product will inform you of the actual costs.	200 EUR
Exit charges	We charge no exit charge for this fund.	0 EUR
Charges taken from the fund annually		
Management fees and other administrative and operating expenses	2.24% of the value of your investment per annum. The percentage shown is based on the previous year's fees/expenses.	220 EUR
Transaction costs	0.23% of the value of your investment per annum. This is an estimate of the costs we incur when we buy and sell the investments that underlie the product. The actual amount depends on the volume of securities we buy or sell.	23 EUR
Ancillary charges taken from the fund under specified conditions		
Performance-related fees and profit-sharing fees	There is no performance-related fee for this product.	0 EUR

HOW LONG DO I HAVE TO HOLD MY INVESTMENT AND CAN I WITHDRAW MY MONEY EARLY?

RECOMMENDED HOLDING PERIOD: At least 5 years

Although this fund has no minimum holding period, there is a recommended investment horizon that is aligned with the fund's investment objectives. You may therefore redeem your units before the end of the recommended holding period without having to pay a penalty fee. This may however adversely affect the fund's performance.

HOW CAN I FILE A COMPLAINT?

Complaints may be mailed to CREDIT MUTUEL ASSET MANAGEMENT, Service Relations Distributeurs, 4 rue Gaillon - 75002 PARIS or uploaded at www.creditmutuel-am.eu/fr/actualites-reglementaires/traitements-des-reclamations.html.
