#### KEY FEATURES OF THIS PRODUCT

##### FUND TYPE

A UCITS fund of a SICAV open-ended investment company.

This Key Investor Information document describes one sub-fund of CM-AM SICAV. The CM-AM GLOBAL CLIMATE CHANGE prospectus and periodic reports are prepared for all of the CM-AM SICAV sub-funds. The assets and liabilities of the various sub-funds are segregated. You will therefore not be able to exchange your shares in this sub-fund for shares in another CM-AM SICAV sub-fund.

##### OBJECTIVE

This fund is managed actively, on a discretionary basis and implements fundamental and financial analyses while integrating qualitative ESG screening in accordance with Crédit Mutuel Asset Management's policy and in compliance with GREENFIN label criteria. Its investment objective is to achieve a return that is consistent with the performance of the equity market over the recommended investment period by investing in global companies which are listed on regulated markets and actively contribute, either directly or indirectly, to the prevention of global warming, to the energy and climate transition, and to sustainable development. The fund is aligned with the United Nations' sustainable development goals, and with the following goals in particular: clean water and sanitation, affordable and clean energy, responsible consumption and production, life on land, and climate action. Assets are allocated at the fund manager's discretion and a benchmark index is not required. However, for ex-post evaluation purposes the fund's performance may be compared with the MSCI ALL COUNTRY WORLD Index. The fund's asset allocation and performance may therefore differ from that of its comparative benchmark index. This index is calculated at its closing price in euros and with dividends reinvested.

The initial investment universe includes the global equities of the MSCI ALL COUNTRY WORLD index. It also includes companies with a market capitalisation of over €100 million from all geographic regions, including the emerging countries, and which obtain at least 10% of their revenue from one or more of the eight eco-businesses. From these securities, the investment team selects approximately 30 to 60 equities using non-financial filters and financial analysis. The investment process includes the following steps:

- 1. Eco-business filter:** The companies selected must be active in at least one of the following eight "eco-businesses" activities: energy, construction, circular economy, industry, transportation, information and communication technologies, agriculture (including forestry) and climate change adaptation.
- 2. Exclusion filter:** The investment team excludes companies that derive revenue from such activities as the exploration, production and exploitation of fossil fuels, the nuclear sector, and waste storage facilities and landfill sites that do not capture greenhouse gases. The exclusion criteria are described in the prospectus.
- 3. Carbon filter:** Crédit Mutuel Asset Management's Responsible and Sustainable Finance analysis unit has developed a "carbon scoring" model that rates companies on a scale of 1 to 5, with 5 being the best score. This score is supplemented with an assessment of the company's carbon behaviour over several years, as either - (regressing), = (stable) or + (progressing). As indicated in the prospectus, these two criteria are used to eliminate at least 20% of the lowest-rated securities.
- 4. ESG filter and controversy management:** The investment team will implement non-financial filters to screen for specific environmental, social and governance criteria, which are determined using a proprietary methodology developed by the Responsible and Sustainable Finance Research team. These filters cover governance quality, employee, social and environmental (including climate-related) criteria, and consequently a company's commitment to social responsibility. For example, our ESG categories including respect for human rights, climate strategy and management quality. These filters are used to rate issuers on a scale of 1 to 5, with 5 being the highest rating. Fund managers will only select companies with a rating above 1. Each issuer's management of ESG controversies is also specifically reviewed, tracked and rated. The investment team will exclude companies involved in a major controversy.
- 5. Selection within this filtered universe:** The investment team conducts fundamental, financial and non-financial analyses of the remaining companies of this universe. The fundamental and financial analyses will mainly involve assessing the company's position in its sector's value chain, its growth prospects, value creation, management team and policy to combat global warming, and monitoring various financial ratios.
- 6. Portfolio construction:** When these financial and non-financial analyses are completed, the investment team will select those equities it feels are most attractively valued and build the portfolio in accordance with the following criteria:
  - the average carbon score of the companies selected must exceed that of the investable universe after eliminating 20% of the companies with the lowest carbon scores. From this filtered universe, the investment team will select companies that obtain all or some of their revenue from one of the eight aforementioned eco-businesses, subject to the following limits:
    - at least 20% of the portfolio companies must obtain at least 50% of their revenue from one or more eco-business activities
    - no more than 25% may obtain only 0% to 10% of their revenue from one or more eco-business activities
    - the remainder may consist of companies that obtain from 10% to 50% of their revenue from one or more eco-business activities, and of debt and money market instruments, which together may not exceed 10% of the portfolio.

As explained in the prospectus, the use of external data and the lack of certain data may prevent consistent carbon and ESG criteria from being systematically used.

**Non-financial criteria are assessed for at least 90% of the fund's net assets.**

**The fund has obtained the Greenfin label.**

**The fund will observe the following net asset exposure limits:**

**From 80% to 110% of net assets may be invested in equities of all geographic regions (including emerging markets), with no restrictions on market capitalisation or sector.**

**From 0% to 10% of net assets may be invested in sovereign, public and private debt instruments of all geographic regions (including emerging countries), regardless of credit rating as determined by the management company or a rating agency, or the lack of such a rating.**

**Up to 100% of net assets may be exposed to currency risk.**

**The fund may also:**

- trade in forward contracts, futures, options and securities with embedded derivatives, used for hedging and/or to gain exposure to equity, interest-rate, credit and currency risks, which may increase the portfolio's exposure beyond 100% of net assets.
- engage in securities financing transactions.

## RETAIL INVESTORS TARGETED AND FUND DURATION

This fund is intended for investors with a long-term investment horizon that is consistent with the fund's recommended investment period. It is intended for investors with at least a basic knowledge of financial products and markets, and who are willing to accept the risk of capital loss. The fund is not open to residents of the United States of America / US Persons. For more information you may refer to the glossary on Crédit Mutuel Asset Management's website.

The fund's objective is capital growth, while integrating non-financial criteria into its investment process. Prospective investors should contact their financial advisor for guidance as to whether the proposed investment solutions are compatible with their objectives, knowledge and experience of financial markets, assets and risk appetite. Their financial advisor may also inform them of potential risks.

**Allocation of distributable amounts:** Accumulation

**Subscription / redemption:** Subscription and redemption orders are processed every business day at 12 noon and executed at the following day's net asset value. The net asset value is calculated every business day at closing market prices, except when the Paris stock exchange is closed as per the Euronext SA calendar.

**Fund duration:** This fund was established for a period of 99 years, which may be extended as set forth in the fund Rules.

For more information, please refer to the "Other relevant information" section of this document.

## RISK AND REWARD PROFILE

### RISK INDICATOR

Lower risk and typically lower rewards

Higher risk and typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This risk indicator assumes that you will hold this fund for at least five years.

It enables you to assess this fund's level of risk exposure and compare it to other funds. It reflects the probability that this fund may suffer a loss due to adverse market movements or if we cannot make payments to you.

We have classified this fund as risk class 4 out of 7, which is a medium risk class. This means that the level of the fund's potential losses is considered to be medium and that if market conditions were to deteriorate the fund's net asset value could be adversely affected.

The following risks may cause the net asset value to fall: counterparty risk, liquidity risk and the risk associated with the use of derivatives and similar investment techniques. For more information, you may refer to the fund's risk profile in the prospectus.

As this fund does not secure your investment against market fluctuations, you may lose some or all of the capital you invest.

If we are unable to honour your redemptions, you may lose your entire investment. However, you may be protected under consumer protection regulations (see "What happens if we are unable to make payments?"). The indicator shown above does not take such protection into account.

## PERFORMANCE SCENARIOS

Your return from this fund depends on the future performance of financial markets. Future market movements are random and cannot be accurately predicted.

The unfavourable, intermediate and favourable scenarios presented below are examples based on the best, worst and median performance of the fund and of a suitable proxy\* over the last 10 years. Markets may behave quite differently in the future.

(\*) For more information you may refer to the glossary on Crédit Mutuel Asset Management's website.

Recommended holding period:		5 years	
Hypothetical investment amount:		10,000 EUR	
		If you leave after 1 year	If you leave after 5 years
Scenarios			
Minimum	There is no guaranteed minimum return. You could lose some or all of your investment.		
Stressed	<b>Your hypothetical return net of costs</b>	4,890 EUR	3,560 EUR
	Average annual return	-51.1%	-18.7%
Unfavourable	<b>Your hypothetical return net of costs</b>	7,720 EUR	8,100 EUR
	Average annual return	-22.8%	-4.1%
Intermediate	<b>Your hypothetical return net of costs</b>	10,630 EUR	14,670 EUR
	Average annual return	6.3%	8%
Favourable	<b>Your hypothetical return net of costs</b>	13,930 EUR	17,350 EUR
	Average annual return	39.3%	11.6%

The figures shown above account for all the costs of the product itself, but not necessarily all the fees owed to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

The stressed scenario shows your hypothetical return under extreme market conditions. If the stressed scenario is more favourable than the unfavourable scenario, then the stressed scenario is the unfavourable scenario.

This type of unfavourable scenario was observed on a fund investment between 29/10/2021 and 30/11/2022.

This type of intermediate scenario was observed on a fund investment between 31/10/2013 and 31/10/2018.

This type of favourable scenario was observed on a fund investment between 31/10/2016 and 29/10/2021.

Return calculations are based on the performance history of the fund and of a suitable proxy.

## WHAT HAPPENS IF CREDIT MUTUEL ASSET MANAGEMENT DEFAULTS ON PAYMENTS?

The depositary holds the fund's assets in custody independently of CREDIT MUTUEL ASSET MANAGEMENT's assets. If the Management Company that manages your fund's assets defaults this will have no effect on your investment.

Although the depositary does not offer a guarantee, it observes asset segregation rules. If the depositary defaults, you may be able to benefit from a securities guarantee scheme managed by the FGDR (Fonds de Garantie des Dépôts et de Résolution), subject to compliance with the eligibility requirements. Accordingly, if this fund suffers a loss due to a default of the depositary, you may lose some or all of your investment, depending on your situation.

## HOW MUCH WILL THIS INVESTMENT COST ME?

Your financial advisor on this fund or its distributor may require that you pay additional costs. If this is the case, they will inform you of these costs and explain how they affect your investment.

### COST OVER TIME

The tables below show the amounts taken from your investment to cover the various costs. These amounts depend on the amount you invest, how long you hold your investment and its performance. The amounts shown here are examples based on a hypothetical investment amount and different possible investment periods.

We have assumed the following:

- that in the first year you would get back the amount you invested (0% annual return), and that for the other holding periods the product will perform as shown in the intermediate scenario.
- 10.000 € are invested.

	If you leave after 1 year	If you leave after 5 years
<b>Total costs</b>	433 EUR	2,031 EUR
<b>Annual cost in% (*)</b>	4.4%	3% per annum

(\*) This shows how much costs reduce your return each year over the holding period. For example, it shows that if you leave the fund at the end of the recommended holding period, you may expect an average annual return of 10.9% before costs are deducted and 7.9% after their deduction.

We may share costs with the person or entity who/which sells you this fund to cover the cost of the services they provide you. The distributor will inform you of this amount. These figures include the maximum distribution fee that the person selling you the product can charge you (2% of the amount invested or 200 EUR). The distributor will inform you of the actual distribution costs. For example, if you select this fund as the sole vehicle for a life insurance or other contract, **these costs would not be the only costs you might incur.**

### COSTS BREAKDOWN

If you leave after 1 year		
<b>One-off entry and exit charges</b>		
<b>Entry charges</b>	2% of the amount you invest in the fund. This consists of a distribution fee of 2% of the amount invested or 200 EUR. This is the maximum amount you will pay. The seller of the product will inform you of the actual costs.	200 EUR
<b>Exit charges</b>	We charge no exit charge for this fund.	0 EUR
<b>Charges taken from the fund annually</b>		
<b>Management fees and other administrative and operating expenses</b>	2% of the value of your investment per annum. The percentage shown is based on the previous year's fees/expenses.	196 EUR
<b>Transaction costs</b>	0.38% of the value of your investment per annum. This is an estimate of the costs we incur when we buy and sell the investments that underlie the product. The actual amount depends on the volume of securities we buy or sell.	37 EUR
<b>Ancillary charges taken from the fund under specified conditions</b>		
<b>Performance-related fees and profit-sharing fees</b>	There is no performance-related fee for this product.	0 EUR

## HOW LONG DO I HAVE TO HOLD MY INVESTMENT AND CAN I WITHDRAW MY MONEY EARLY?

### RECOMMENDED HOLDING PERIOD: At least 5 years

Although this fund has no minimum holding period, there is a recommended investment horizon that is aligned with the fund's investment objectives. You may therefore redeem your units before the end of the recommended holding period without having to pay a penalty fee. This may however adversely affect the fund's performance.

## HOW CAN I FILE A COMPLAINT?

Complaints may be mailed to CREDIT MUTUEL ASSET MANAGEMENT, Service Relations Distributeurs, 4 rue Gaillon - 75002 PARIS or uploaded at [www.creditmutuel-am.eu/fr/actualites-reglementaires/traitements-des-reclamations.html](http://www.creditmutuel-am.eu/fr/actualites-reglementaires/traitements-des-reclamations.html).
