Europe has been a pioneer in the implementation of environmental, social and governance rules. From now on, beyond shareholder engagement, non-financial criteria are becoming a tool for selectivity but above all for improving social practices, governance and environmental footprint.

2 MANAGEMENT OBJECTIVE

The investment objective of this UCITS is to outperform the benchmark index, the capitalised Euro short-term rate (€STR), over the recommended investment period. The composition of the UCITS may differ significantly from the breakdown of the benchmark index. The fund's net asset value could fall structurally during periods of particularly low, negative or volatile interest rates.

VOTING POLICY available on the website

Crédit Mutuel Asset Management's proprietary ESG analysis model uses a tool to assess the risks and opportunities related to the environmental and social transitions of the issuers making up the portfolio. The analysis of issuers covers five main pillars: environmental, social, societal, governance and the company's commitment to a socially responsible approach. A rating is then calculated based on three components (environment, social and governance), which enables us to position the portfolio in terms of ESG. The exercise of voting rights and dialogue with issuers round out our responsible investor approach.

4 MANAGEMENT COMMENT

Despite the prevailing pessimism about the Eurozone's real economy, record highs are being set in euphoric equity markets, driven by the promise of Artificial Intelligence and future rate cuts. Before embarking on a period of rate cuts, the ECB wants to wait for confirmation that inflation is falling in the Eurozone. This period is very favourable for short-term UCIs.

PORTFOLIO BREAKDOWN BY MATURITY

6 A WORD FROM RESPONSIBLE FINANCE

The European legislative process underway since 2021 to produce a directive on the duty of care of companies with regard to human and environmental rights has come to an abrupt halt and may never be resumed. The vote was postponed indefinitely following reservations expressed by certain Member States, leading to fears that the necessary majority would not be in place for its approval. However, legislative work will be suspended in April and will not resume until after the European elections in June, when the post-election European landscape is expected to be less favourable to this directive, which could lead to the project being abandoned altogether.
