EDITORIAL

Europe has been a pioneer in the implementation of environmental, social and governance rules. From now on, beyond shareholder engagement, non-financial criteria are becoming a tool for selectivity but above all for improving social practices, governance and environmental footprint.

Overall rating	5.91
E rating (Environment)	5.89
S rating (Social)	5.7
G rating (Governance)	6.19

Crédit Mutuel Asset Management's proprietary ESG analysis model uses a tool to assess the risks and opportunities related to the environmental and social transitions of the issuers making up the portfolio. The analysis of issuers covers five main pillars: environmental, social, societal, governance and the company's commitment to a socially responsible approach. A rating is then calculated based on three components (environment, social and governance), which enables us to position the portfolio in terms of ESG. The exercise of voting rights and dialogue with issuers round out our responsible investor approach.

4 MANAGEMENT COMMENT

Equity markets continued to perform well in February, buoyed in particular by good earnings releases for 2023 and high-quality companies benefiting from strong momentum. Against this backdrop, the fund posted significant growth. The technology sector continues to benefit from the craze for Artificial Intelligence and solid results and prospects with BE Semiconductor Industries (+19.6%) and ASM International (+9.2%). Economic figures, particularly in the United States, paint a picture of resilient activity and job markets, while the continuing high levels of inflation (CPI Core 3.9%) explain the stagnation of US long-term yields at around 4.2%. Among the best performers over the month were companies in the luxury goods sector, such as Brunello Cucinelli (+20.3%) and Moncler (+16.3%), whose business remained buoyant despite a rather quiet Chinese New Year. We would highlight the performance of Carl Zeiss Meditec (+15.4%), in the field of ophthalmic surgery, which seems to be confirming its return to favour after a difficult 2023. Among the main positions, the only notable fall over the month was Alten (-5.6%), after a strong run in previous weeks. GTT (+9.9%) continues to deliver solid operating results.

6 A WORD FROM SRI

The European legislative process underway since 2021 to produce a directive on the duty of care of companies with regard to human and environmental rights has come to an abrupt halt and may never be resumed. The vote was postponed indefinitely following reservations expressed by certain Member States, leading to fears that the necessary majority would not be in place for its approval. However, legislative work will be suspended in April and will not resume until after the European elections in June, when the post-election European landscape is expected to be less favourable to this directive, which could lead to the project being abandoned altogether.
