

# Finance *for* Biodiversity Pledge

PRESS RELEASE

## **20 more financial institutions sign the Finance for Biodiversity Pledge**

*75 signatories represent in total over €12 trillion in assets and 17 countries.*

22 September 2021 – STOA Infra & Energy, La Banque Postale Group, Fidelity International and Manulife Investment Management are among the 20 new financial institutions that have signed the Finance for Biodiversity Pledge. The celebration of the new signatories will be held during the [high-level opening event of the Nature for Life Hub](#), the side event of the UN General Assembly today, Wednesday 22 September 2021 between 2-4 pm CEST.

The total number of signatories now stands at 75 and has almost tripled since the [first launch by the 26 founding signatories exactly one year](#) ago.

Saker Nusseibeh, the CEO of current Pledge signatory Federated Hermes International, will welcome the new signatories during this event of (non-)state actors, which is co-organised by Antigua & Barbuda, AOSIS, Belgium, Bhutan, Colombia, Costa Rica, the EU, France, Gabon, the UK, Vietnam, the Convention on Biological Diversity (CBD), National Geographic & Campaign for Nature, UNEP, UNDP and World Wide Fund for Nature (WWF) to showcase actions being taken to protect, conserve, sustainably use and restore nature and close the finance gap.

### **5 commitments**

The Finance for Biodiversity Pledge is a commitment of financial institutions to protect and restore biodiversity through their finance activities and investments. The Pledge consists of 5 steps financial institutions promise to take:

1. Collaborating and sharing knowledge
2. Engaging with companies
3. Assessing impact
4. Setting targets
5. Reporting publicly on the above before 2025

### **Urgent need to preserve biodiversity**

The signatories recognize that the Earth's biosphere is the foundation of human resilience and progress, and that it is under increasing stress. As financial institutions, they emphasize the need to protect biodiversity and to reverse nature loss in this decade, ahead of the Conference of the Parties (COP 15) to the Convention on Biological Diversity (CBD) in 2021.

**Working groups**

Financial institutions that signed the Finance for Biodiversity Pledge can become a member to join the working groups of the Finance for Biodiversity Foundation. With this new round of signatories the total number of members increased from 26 to 36. The members are sharing knowledge and collaborating on topics like impact assessment, engaging with companies and public policy advocacy. Additional working groups on positive impact and target setting are likely to follow next year.

**Another round of signatories in November**

There will be another round of signatories during the European Business and Nature Summit on 30 November and 1 December 2021. The deadline for new signatory financial institutions to register is 19 November 2021.
